CORONA DAY MAY QUEEN	Start Arab-Israel war '48	1 year since the Total Blood Moon Eclipse in Libra over the America's Duration: 2:28-5:55 UTC Revelation 2:28 JOEL 2:31 bookend Lunar Second Passover	The new Moon of Swan is expected on 5/20, after the sabbath starts at sunset the day prior on 5/19. It is a special new Moon which is referred to as Machar Chodesh, meaning 'Tomorrow is the new month'. This terminology comes from 1 Samuel 20:18-42 which foreshadows the transition of power from Saul, the fallen king, to David, Israel's newly anointed king, before David's eventual imminent coronation and public presentation. David (beloved, bride type) types the first fruits from Revelation 14:4. Jonathan ('Yahweh given') is the royal covenant partner, a type of Christ. Patterns of post-eclipse, new Moon judgment: Joel 2:31, Amos 8:9-11, Hosea 5:7.			

*The main message of this article, as always, is to [be ready spiritually](#), for the Lord is at the door. He will come shortly, to rescue [his overcomers](#) and the innocent in Christ, but also to discipline the lukewarm, the wayward, and the lost as he calls them to wholeheartedly [repent, trust, and obey Him](#).*

## Content

- The calendar has been updated until Iyar 29
- On the heavenly blackboard we can discern how the British Royals seek to align King Charles' coronation today (May 6th), with the man child constellations Coma Berenices and Canis Venatici, as his crowning ritual takes place during these constellation's daily culminations and his predecessor Charles I was named after one of its brightest stars. I understand the elite seek to showcase a purposeful connection with the heavenly Man Child, pretending to emulate the hidden 'Desired of the Nations' as if they were 'the chosen'.
- Confirming Charles' crowning scene, the Moon aligns with the Northern Crown, Corona Borealis, name-giver of the 'Coronavirus'. The 'multi-faith' [service](#) takes place right after the WHO has just [closed](#) the CV19 emergency timeframe, under the canopy of the penumbral lunar eclipse in Libra's altar of redemption, bringing their efforts to usher in the beast system to a close. They await the departure of the Lord's [overcomers](#) and innocent, when they will be unrestrained.

*Amos 8:10 And I will turn your feasts into mourning,  
and all your songs into lamentation; and I will bring up  
sackcloth upon all loins, and baldness upon every  
head; and I will make it as the mourning of an only  
son, and the end thereof as a bitter day.*

## The king's darkened heart | Here comes their king

A sparkling clean cup on the outside

Charles' coronation on May 6th will align with the daily culmination of the Man Child constellation, depicting the 'Desired Son' standing on the Virgin's lap, also known as the 'Desire of Nations'. This original Biblical figure is currently hidden underneath the constellations Coma Berenices (a hairpiece) and Canis Venatici (two hunting dogs) flanking Coma to its left. At the time of the crowning, the Full Flower Moon in Libra will align with the Northern Crown, the name giver of the elite's 'Coronavirus', secretly [ushered in by the British Crown](#). Many have unfortunately fallen prey to their temporal false peace offerings and pharmakeia-induced security.

The crowning's placement on the celestial clock is purposeful IMO, as is the venue in the twin-towered Westminster Abbey (reflecting the Gemini bride and groom), where the coronation will take place on the restored Cosmati Pavement, emulating world rulership and the heavenly throne room, governed by elementary witchcraft in their darkened eyes.

## Babylon is fallen

*Daniel 9:24 Seventy weeks are determined upon thy people (years of weeks, I understand to be marked by the platinum jubilee since the Queen's [first official engagement](#) as Colonel of the Guards in 1942) and upon thy holy city, to finish the transgression, and to make an end of sins, and to make reconciliation for iniquity, and to bring in everlasting righteousness, and to seal up the vision and prophecy, and to anoint the most Holy.*

Charles' crowning will bookend the formal reign of Queen Elizabeth over spiritual Babylon (Daniel 9, Jeremiah 29). While feigning a Christian identity based on the nation's roots, Charles, the royal spearhead of the world masonry and high ranking satanic ambassador, seeks to usher in a satanic 'new world order' and 'one world religion' instead, marketed as a 'king of all world faiths'.

Piercing through their kingdom of lies and extravagant smoke screens, we know that Scripturally 'Babylon is fallen' and awaits its soon judgment, commencing with the harlot daughter nation, the US (Ephraim, Jeremiah 50-51) and the mother nation, Britain (Manasseh, Jeremiah 23). The satanic new world order will be used as a hammer of judgment in the end times, but will be no match to the soon-to-be commissioned [remnant Revelation 14:4 harvesters](#), operating as kings and priests in the high priestly order of the true Man Child, and Beloved Son, Jesus Christ.

## Their New Dawn and Golden Harvest

During the Queen's Jubilee skid (showcasing Paddington Bear), she [alluded to 'the coming bear judgment'](#) and nuclear warfare, coupled with food shortages. A wink and a nod to the induced conflict in bread

basket Ukraine, as B-actor-turned-precedent [Zelensky was the voice-over](#) for Paddington Bear in his nation.

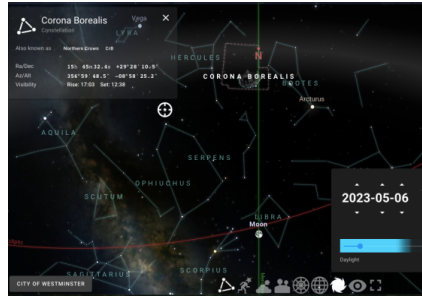

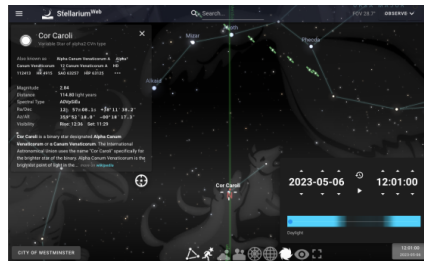

Geopolitically, the bear-type points to Russia, recently voicing explicit nuke threats to the west in general (and the UK in particular). The 'bear-judgment' of 'baldness on every head' is also alluded to in Amos 8:10, positioned at the time of the grain harvest, when Amos' basket of summer fruit is full and both the Lord's first fruits and the fruits of iniquity are ready to be harvested. In this same vein, the queen spoke of there being 'no more tea or T', perhaps covertly pointing to the Second Passover blood atonement door closing.

The vast crowd outside [cheered in agreement](#) to the queen's ominous announcement that 'we will rock you', unsuspecting of the nuclear and heavenly judgments about to be cast down. They were then readied by [doting son](#) Charles to accept [William's forthcoming promotion](#) of his 'wonderful world' utopia – as he stood on the runway to the center stage as a 'new Adam' under their lit-up hybrid tree of life thanking the 'queen of idol hope' – where mankind overcomes and saves by human effort and their version of sustainable environmental stewardship, one of the greatest being their 'golden calf- like vaccines, implicitly ushering in the [coming beast system](#) with their consent. With discernment, we see a transference of authority to the [prince to come](#), a reset of sorts.

Prophetically, the bear judgment finds a precedent in the account of the [prophet Elisha](#), who received the double portion of the Spirit and took over Elijah's mantle, at which time he's mocked and ridiculed and calls forth the 'bear judgment' to fall as explained [in this previous article](#).

*Note the blue, golden carpet stride toward the Cosmati Pavement of elementary witchcraft, similar to the Ukrainian trident-embellished flag. Like a 'new dawn' at this harvest season.*

*It is unlikely the elite will taint 'their big day' with an overt ritual sacrifice, but next week's [Eurovision Song Contest](#) (May 9-13) in Liverpool could be worthy of our prayerful attention.*

## Cor Caroli | The king's darkened heart

The brightest stars in the constellation Canis Venatici, Cor Caroli (Charles' heart) and Chara (joy, beloved), were [renamed after King Charles I as 'The Heart of Charles, the martyred king'](#). Charles I was one of the nation's most vilified and praised monarchs. He was thrown from power in 1647 after a long civil war between the Royalists, who supported him, and the Parliamentarians, led by the Puritans. The Parliamentarians declared a "republican" form of government known as the Commonwealth, which was originally deeply grounded in strict Puritan morality. On Jan. 30, 1649, having blamed the former king for all the death and destruction of the war, the Commonwealth lopped off the head of the unfortunate monarch.

With the current King Charles' persistent efforts to usher in a sustainable utopia and multi-faith religious mixture, secretly steered by demonic forces revealing his darkened heart, the once Godly nation commissioned to evangelize the world, has now fully degenerated spiritually, into lukewarmness and unbelief. In this [prophetic dream](#) by sister Vicky Goforth Parnell, it is revealed that today's overt crowning ritual was preceded by a satanic sacrificial ritual, yesterday, showing the depth of darkness and involvement of the world elite.

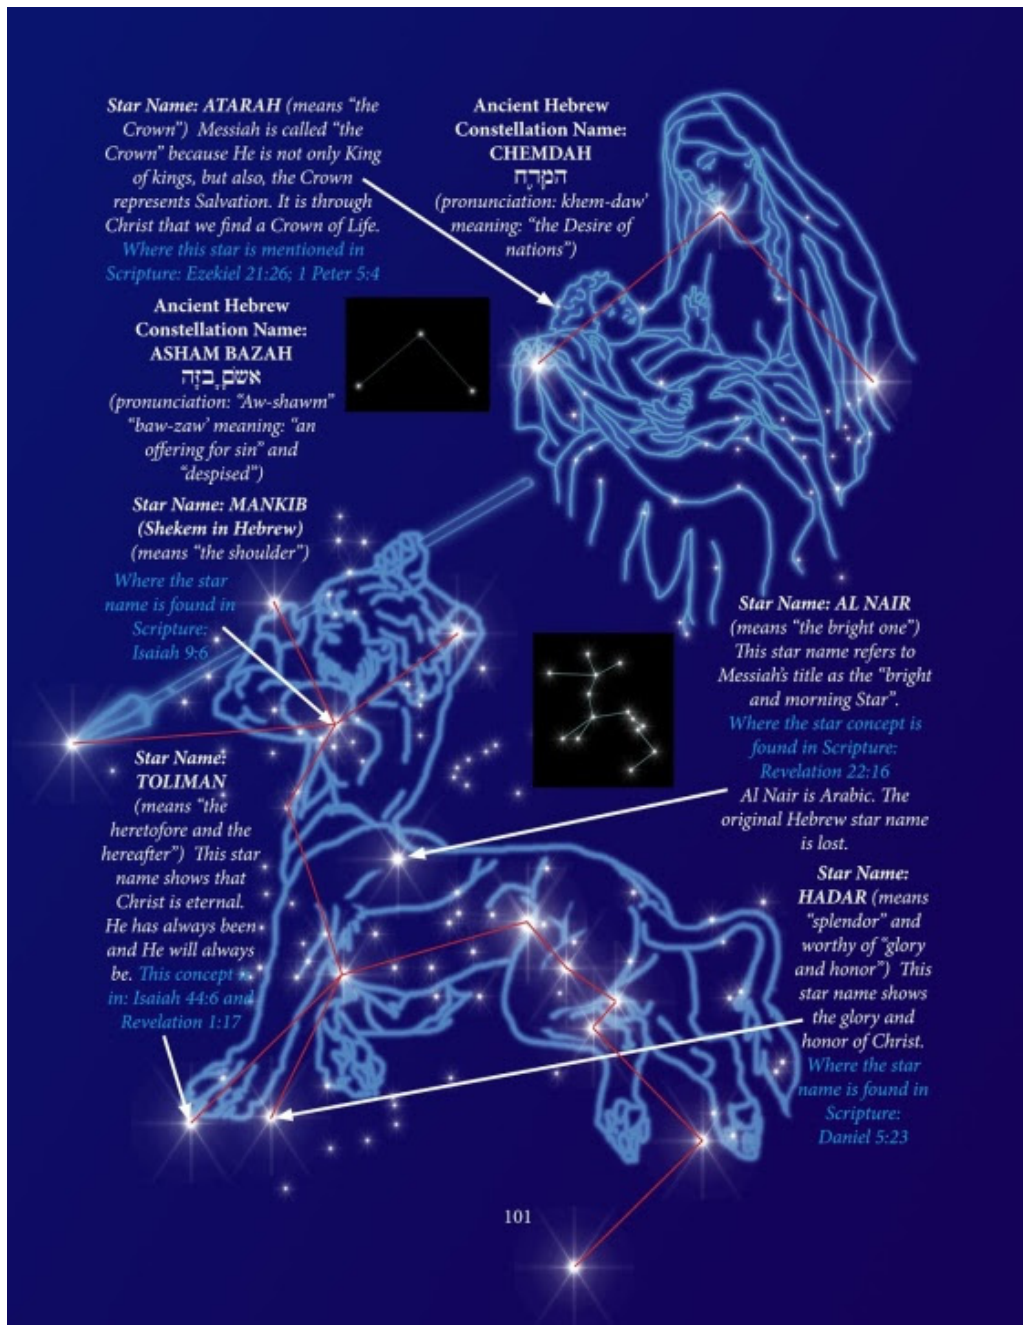

Let us take a look at the Biblical original of the heavenly backdrop to today's coronation, now obscured by pagan and secular images and attributes.  
May the Lord's beauty shine through powerfully!

## Notes COMA BERENICES

### THE DESIRED SON

The ancient name of this constellation is *Comah: the desired, or the longed for*.  
The Hebrew name was *Koman* (desired) (from Hebrew *kamahh* - "to pine after",  
Psalm 63:1; akin to *chamdah*- "delight/desire", Haggai 2:7).

The Greek word for hair was *Co-me*. Conon, the astronomer of Alexandria (3 BC) originally altered it to represent hair. However, the ancient zodiacs (such as the Egyptian Dendera) pictured this constellation as a woman with a child in her arms. The Egyptian name was *Shes-nu: the desired son*.  
Albumazar (or Abu Masher), c. AD 850 Arabian astronomer, also testified of the constellation with a virgin nourishing an infant - whose signification was Christ.

20

The astronomer John Pratt has well suggested that it previously involved the nearby modern constellation of Canes Venatici (the Hunting Dogs). It was one of those two stars which was listed in the ancient Greek catalog as not belonging to any constellation. This is a reasonable suggestion, as Pratt noted, because stars associated with the Messiah are of the higher magnitudes (Regulus, Spica, etc.). This would put the brightest star there (Cor Caroli) in the general area where the infant would be.

Other theories, about the makeup of the ancient constellation, sometimes depict Coma Berenices parallel to Virgo. However, combining it with the stars of Canes Venatici better depicts a woman sitting on a square throne, as depicted in the Dendera art.

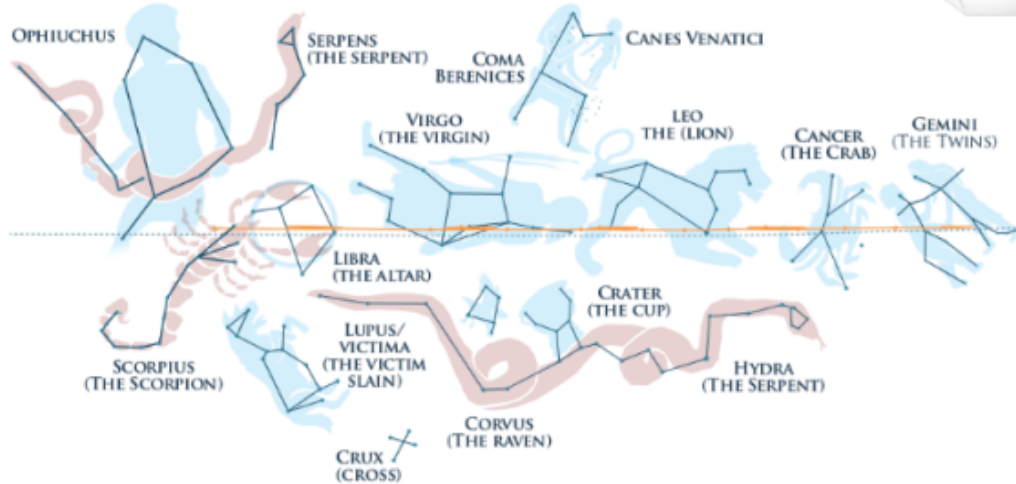

“...I will shake all nations, and the desire of all nations shall come...”  
- Haggai 2:7

The ancient constellation is depicted as a woman (of royalty), sitting on a throne, nursing an infant. Since the constellation is a division of Virgo, the woman is also identified with Virgo.

The constellation itself (on modern star maps) is depicted as only two lines. Overall, the star group is peculiar in that it has no single very bright star; most of them are of the 4th and 5th magnitudes. The exact ancient depiction of Coma Berenices is unsure; just that it was in this area.

In Revelation 12:5a Virgo has delivered the Man Child, with Draco, the dragon nearby | [Source](#)

This second heavenly wonder, is also near Virgo...

The dragon is being described as red (fire like), which is not mentioned again - anywhere in scripture. These specific descriptions in these verses also show that this is a literal, physical celestial scene that sparks the discussion and symbolic references in the rest of the chapter.

Bootes generally means herdsman, but gets its name from the Latin bovis, 'cow'. Also called Great Horn in Chinese astronomy. Ten horns.

Corona Borealis Latin name literally means 'northern crown', and is made up of 7 stars. The 7 crowns above Draco's seven heads.

## Finding the Man Child

The stars Cor Caroli (meaning '[heart of Charles](#)', also known as 'Asetrion' is a binary star) and Chara (meaning '[joy](#)', beloved) mark the location where the young Man Child Jesus is found. Cor Caroli also formed the start of the river Jordanus, which, since the 18th century

became known as the Boötes' 'Hunting Dogs', as depicted below. If you look closely one of them still has a crown.

*Cor Caroli (binary star) is now part of the Hunting Dogs | Note the 'royal' heart symbol*

Boötes hath unleash'd his fiery hounds.  
Owen Meredith's *Clytemnestra*.

### Canes Venatici, the Hunting Dogs,

are the French **Chiens du Chasse**, or **Levriers**; the German **Jagdhunde**, and the Italian **Levrrieri**, lying between Boötes and Ursa Major. Ptolemy entered their stars among the ἀμόρφωτοι of the latter constellation, and the modern forms first appear in the *Prodromus* of their inventor Hevelius. The more northern one is **Asterion**, Starry, from the little stars marking the body; and the other, which contains the two brightest stars, is **Chara**, as Dear to the heart of her master. Flamsteed followed in the use of these names, and the **Hounds** are now well established in the recognition of astronomers, as is the case with most of the stellar creations of Hevelius, which were generally placed where needed.

Proctor, in his attempt to simplify constellation nomenclature, called them **Catuli**, the Puppies; but the usual illustration is of two Greyhounds held by a leash in the hand of Boötes, ready for pursuit of the Bear around the pole; their inventor thus reviving the idea that Boötes was a hunter.

Hevelius counted 23 stars here; Argelander, 54; and Heis, 88.

The Chinese designated three stars in or near the head of Asterion as **San Kung**, the Three Honorary Guardians of the Heir Apparent.

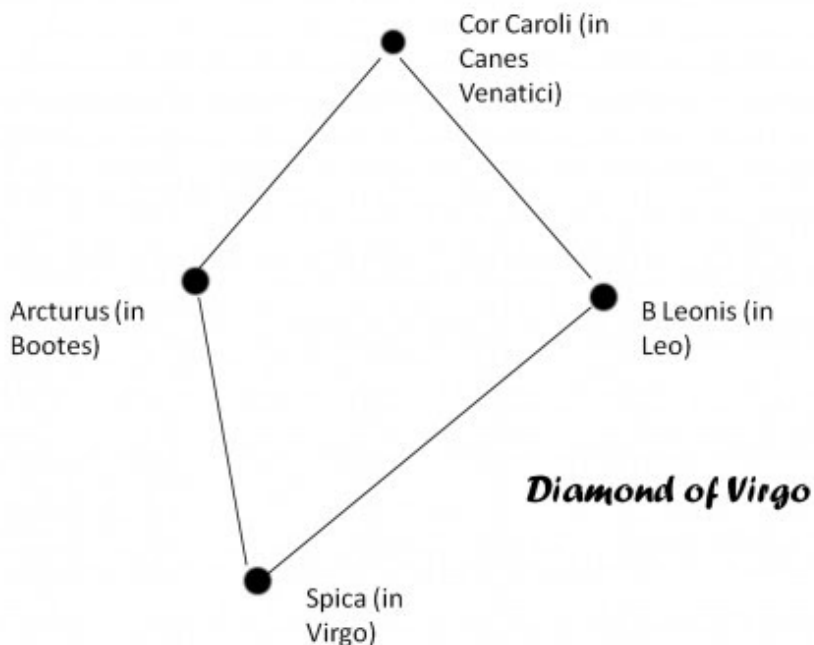

Assemani alluded to a quadrate figure on the Borgian globe, below the tail of the Greater Bear, as **Al Karb al Ibl**, the Camel's Burden, that can be no other than stars in the heads of the Hunting Dogs.

Bartschius drew on his map of this part of the sky the **River Jordan**, his **Jordanis** and **Jordannus**, not now recognized, indeed hardly remembered. Its course was from Cor **Caroli**, under the Bears and above Leo, Cancer, and Gemini, through the stars from which Hevelius afterwards formed Leo Minor and the Lynx, ending at Camelopardalis. But the outlines of his stream were left somewhat undetermined, much like those of Central African waters when guessed at by map-makers thirty years or more ago. This river, however, had already existed before his day on French star-maps and -globes.

$\alpha$ , Double, 3.2 and 5.7, flushed white and pale lilac.

This star, the  $\alpha$  of Flamsteed's list of the Hounds, stands alone, marking Chara's collar; but was set apart in 1725 by Halley, when Astronomer Royal, as the distinct figure **Cor Caroli**, not Cor Caroli II as many have it, in honor of Charles II. This was done at the suggestion of the court physician, Sir Charles Scarborough, who said that it had shone with special brilliancy on the eve of the king's return to London on the 29th of May, 1660. It has occasionally been seen on maps as the centre of a Heart-shaped figure surmounted by a crown, and its name occurs in popular lists; but Flamsteed did not insert it on his plate of the Hounds, although he distinctly wrote of it in his manuscript under this title; and the Heart perhaps is shown in the tail-piece to the preface of the *Atlas Coelestis*.

*Cor Caroli* is also part of the celestial figure called the [Spring](#), [Great of Virgin's Diamond](#)

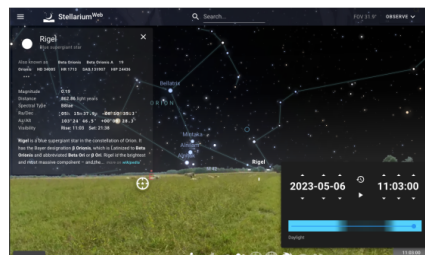

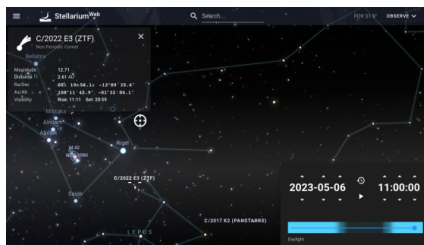

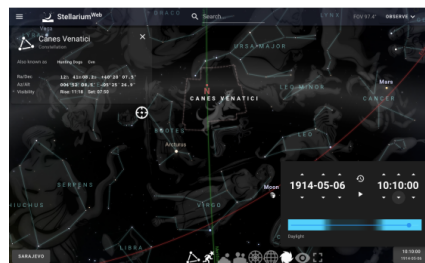

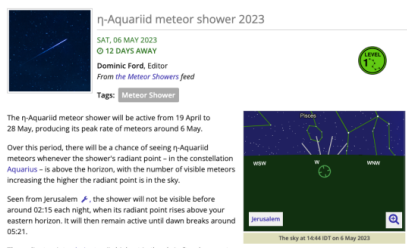

*Charles as current 'top dog', a placeholder for the 'prince of hearts' [Will I am](#)*

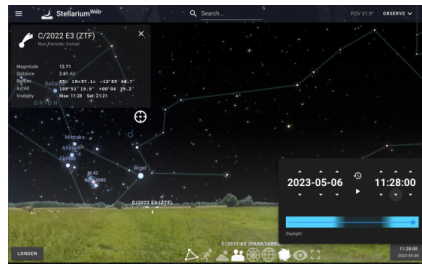

## Flanking heavenly signs

- The eta-Aquariids peak today, the tail of Halley's comet, associated with judgment (slide 1).
- The coronation's placement underneath Ursa Major and Canis Venatici is similar to the one at the time of [Archduke Franz Ferdinand's assassination](#), leading to WWI (slide 2).
- Comet E3 (ZTF), the Aquila comet, arrives at the serpent's head (Lepus) underneath Orion's star Rigel (the foot that crushes the enemy's head). I understand this to be a picture of the Lord's judgment starting as the seed of the woman would indeed 'crush the head of the serpent' as prophesied in Genesis (slides 3-5).

## Location matters

The City of London's ground plan is designed as an [Asherah shrine](#) in the worship of their false understanding of Venus, the beloved David bride type Scripturally, but Lucifer the light bearer to them. London's key buildings and ritual statues are positioned as a [blueprint of the Hawk constellation Canis Major](#) with the Fire of London Monument flanking St. Paul's as the emulation of Sirius, the Revelation 22 bright morning star and our Prince of Peace to come down swiftly, marked by the Fire of London monument, heralding a golden Corona crown on top.

*[This article](#) by Jeremy James shows how the world elite's pandemic preparations were designed into the London ground plan, which foreshadows the end of this age, closed by the first harvest departure of the bridal company and the innocent in Christ, after which the satanic elite will be unrestrained to roll out their beast system.*

### For context, further study

I understand Charles serves as a placeholder for his eldest son:
